<p><b>Events concerning the sea and shipping and of rivers and springs. On November 28, 1775, the day the US Navy was founded, the NNode, Venus, Saturn and Neptune aligned with Argo stars; Neptune was lined up with V Carinae in the great ship's keel. In September 1941 when Neptune returned to the longitude of this star, a Solar Eclipse (cnj. Neptune) aligned with V Carinae and the US Navy's Neptune; <math>\frac{2}{12}</math> months later Japan attacked Pearl Harbor, Hawaii, and devastating America' Pacific fleet. (Diane K. Rosenberg).</b></p>
